

Common word flash cards

Dear Parent/Carers

Please find attached a list of common words that we will be introducing to the children during our shared reading. During our reading sessions we will be looking for one/two of these words in the book and encouraging the children to find and say the word. "I see the word, I say the word."

Please cut up the words to make flash cards and encourage your child to learn these words by sight. Start with one word at a time and build on this, each time your child recognises a word. You could choose a word and play 'word hunt,' using the story book your child has borrowed.

Thank you for your support.
