

Litter Less To Be The Best!

Join Us On Our Litter Less Campaign!

DON'T DROP LITTER,
BIN IT TO WIN IT!

- The most dropped litter item is fast food take-away packaging!
- The current amount of litter on the Earth could circle the planet four times!
- One hundred and eighty thousand Sacks of litter are removed from the road each year!
- By the end of 2020 there will be more litter in the sea than fish!
- If you drop a piece of plastic it could still be around when your great great grandchildren are born.
- £1 Billion of Taxpayer's money is spent EACH YEAR on clearing litter!
